7. Live The Old West - You are bidding on the famed Winchester Model 1892 repeating lever action rifle. John Wayne made this rare weapon famous by using it in dozens of his films as well as having several of them in his private collection. Although many reproductions of this model rifle were manufactured in unoriginal calibers (most of which were used in Hollywood films), you are bidding on a real piece of history. This rifle is the genuine article and was manufactured in 1911 in one of the earliest calibers: .32-.40 WCF. It is not a reproduction, yet its 24" blued steel octagonal barrel, tube magazine and forend cap are still in mint condition. Its hardwood crescent butt stock is just icing on the cake for this rare weapon, which harkens to an earlier time in our nation's history. Don't miss out on owning this rare opportunity to preserve the cultural pride of times past.

9. Whitetail Buck Hunt at Trophy Ridge - The winner of this auction will begin his hunt on the road to Saint Jo, TX (an hour's drive north of Fort Worth), and three nights later, he will end it with the same drive home; Though he will most likely be carrying a cleaned trophy Whitetail buck in the back of his truck on the trip home. Included

in this package is a credit for a buck

up to 160", although you may pay

the difference if you decide to harvest a buck larger than 160". This auction

also includes three nights lodging with meals at the 1,100 acre ranch. An

experienced guide will be on hand to show the winning hunter around

the blinds and trails. Trophy Ridge will clean and prepare your prize for

taxidermy, so all you gotta do is tip the staff. If you so choose, there is an excellent taxidermist in the area, as well as a butcher who knows his way around a big buck. Happy hunting!

20. Stalk and Take the Deadly Leopard in the African Countryside - Few individuals can ever say that they have traveled to the Khomas region of the southern African countryside, and far fewer will ever say that they matched wits with one of the most fearsome predators known to man. This 14-day Namibian hunt allows you to be one of those chosen few who will tell the story of staring this cunning predator in the face and proudly taking this deadly animal home. If you win this prized auction, you will have the pleasure of spending fourteen days on 800,000 acres of privately reserved gaming lands to stalk this vicious cat and to observe the exotic wildlife that occupies this territory. You will likely shoot as many pictures as you do rounds in the countryside, although you won't be camping there. Luxury accommodations will be all-inclusive in this once-in-a-lifetime hunt. When you, your professional hunting

guide and your native tracker are not stalking a leopard in your 4x4, you will enjoy ample food, drink and amenities to truly hunt the area in style. This auction includes the trophy fee to take a leopard. You also have the option of taking some of the other exotic game species which inhabit the majestic Khomas Highlands. This will be an adventure that you will never want to forget!

29. Protect Your Herd with an Automated Misting System - The winner of this auction will receive a custom-outfitted high pressure Permethrin misting system installed by North American Whitetail Protection services. The winner will protect his herd with a custom misting system that covers two acres. EHD (Epizootic Hemorrhagic Disease) is the most common pathogenic scourge of any Whitetail deer population. Spread by the Biting Midge, EHD is a fast acting and painful disease that will kill any bitten deer within 5 to 10 days. Luckily, the pesticide Permethrin has many properties that make it optimal to wipe out all of the Biting Midges that threaten your Whitetail herd. Not only is Permethrin instantly fatal to adult Midges, but it flushes them out of their nests, exposing them to a deadly dose. In addition to wiping out the adult insects and destroying their eggs, this NAWPS system causes any surviving or migrating Biting Midges to completely avoid any area with trace amounts of Permethrin. NAWPS guarantees that its mister will reduce insect related animal deaths by at least 50%, increasing profitability by reducing mortality rates, giving you peace of mind and healthy deer.

Become an Anti-Aircraft Gunner at GNAT Shooting Event - Have you ever wanted to shoot down an enemy aircraft, without having to worry about small safety issues like being strafed by a couple of .50 cal's? The GNAT hunt gives you and twenty guests the chance to use your shotguns as a formidable anti-aircraft force against a professional pilot. You will learn just how fast and maneuverable the radio controlled GNAT can be as your team flings a lead hailstorm in to the the air while the plane reaches speeds of up to 120 mph. During each flight, the GNAT is loaded with ten separate explosive charges on its belly which brightly detonate when hit, creating a loud report and and puff of smoke. If three of these "Flash Pods" are hit at once, the plane can be blown out of the sky. GNAT Shooting USA will run the event from their specially designed trailer and provide twenty separate GNAT flights. This is the clay pigeon of the twenty-first century. Dates are subject to availability and must be used by 12/31/2011. August & September are fully booked.

37. Unlimited Dinner for Ten - Celebrity Chef Jon Bonnell is offering a unique dining experience for 10 people. He will provide the rare opportunity to custom create your dream dinner with a completely unlimited menu. Lobster tails, king crab, Kobe beef, the sky is the limit! This four-course dinner can be prepared in your home or at Bonnell's Restaurant. The chef will even dig deep into his own personal wine cellar to pair each course properly with a unique bottle of wine, and these are the kind of wines that you don't find on the store shelves! Unlimited menu, cult wines and unparalleled personal service. Value: Priceless.
